

LIFE *Passion* QUIZ

LEARN HOW YOUR JOB MEASURES UP TO YOUR
PASSIONS AND HOW TO CONNECT TO YOUR
TRUE PURPOSE

PURPOSE DRIVEN REVOLUTION

Let's Get Started!

THE QUIZ

According to the Bureau of Labor Statistics, the average worker currently holds 10 different jobs before age forty, and this number is projected to grow. Forrester Research predicts that today's youngest workers will hold 12-15 jobs in their lifetime - yet no one talks about why.

The reality is it could be a variety of reasons:

- Career Advancement - ie. growth in their current career (ex. beginner to manager levels)
- Boredom, lack of challenge
- Too challenging
- Not paid enough
- Not passionate about it, or unfulfilled

All of these are possible reasons but you're not here to learn about just jobs, you're here to learn how to connect with your purpose and usually that means that you're unfulfilled where you are now.

So let's get started by asking how you have measured up in your quest for purpose with passion in the past up until now?

Take the quiz in the next page and see where you are and what you can do next to discover your Purpose with Passion.

TAKE THE FIRST STEP TOWARD PURPOSE

ASK yourself the following 6 questions and rate the answers on a scale from 1-10 (low-high).

1. How stable have you felt/feel in your job? (Financially, job security, etc.)
2. How much have/has your job maintained your interest in the work?
(interesting, variety, fun)
3. How valued have you felt at work? (respected, important, significant)
4. How connected have you felt to the job/staff? (emotionally, mentally and socially)
5. How much do you feel you have grown or could grow? (skills, career, and in the group/org/company)
6. How much do you feel you have/are contributing to a bigger mission or vision? (a vision that matters to you)

How do these answers make you feel about your current state? Happy/sad/frustrated? Keep track of your answers and find out what they mean next.

WHAT THE QUESTIONS MEAN

How did you do? Scored 9/10's? AMAZING! It means you're on the right track. But if it's not high in most areas then maybe there's something missing.

If you scored less than 8/9 in any of these questions it means your situation is not ideal and if it's less than 5, even stressful! The most common stressors are based on the **human needs psychology** below. In order to feel great with what you do many of these should be fulfilled at high levels - 9/10's. If not, you have some work to do.

1. **Security** - Being unemployed, not getting paid what I'm worth, feeling unstable, ungrounded, unsafe and uncomfortable.
2. **Variety/Uncertainty** – feeling bored, fearful, in chaos, conflict/crisis
3. **Significance** – being relied on too much without return, or feeling insignificant and not cared about
4. **Connection** – not liking the people you work with, being around too much drama
5. **Growth** – not growing or learning, not advancing in position
6. **Contribution** – not helping anyone or contributing to a higher cause or purpose

Ask yourself which needs are most important to you. Generally your top 2 needs run how you live your life and if they aren't satisfied it could lead to unhappiness and worse unfulfillment, aka misery.

The struggle is real but it doesn't have to be. Read on to learn about your full score and how to really dig into your passions!
